Start managing and controlling your cash flow while identifying what’s happening in your business long before its symptoms manifest. This course is designed for pharmacy owners who are ready to take control of their finances and improve their business. Learn how to make better decisions based on data rather than just insight.

**TOP BENEFITS:**
- Create a Cash Flow Forecast for your pharmacy
- Learn to identify and apply cash flow ratios
- Track and manage financial patterns in your business
- Reduce account receivables to increase cash flow
- Understand how to separate your tax strategy from your business strategy
- Learn how to increase your tax deductions
- Reduce the rate of taxes you pay on your business income
- Create a tax strategy for reducing business taxes and increasing wealth

**FINANCIAL IMPACT:**
- Identify the causes of weak cash flow in your business
- Apply solutions for resolving and improving these challenges
- Refine how you make business decisions using key financial data
- Improve vendor reconciliation
- Learn how to immediately improve cash flow through simple tax reduction strategies
